

Hamilton Community Pre-School

"Where discoveries, learning and fun connect"

Information Sheets for Parents:

Professional Standards

National Quality Standard – Quality Area 4

Element 4.2.2 – Professional Standards. Professional standards guide practice, interactions and relationships.

At Hamilton Community Pre-School we use professional standards and ethical principles to guide professional conduct in decision-making and practice.

Each Educator has a job description that provides clear guidance about their responsibilities in relation to one another and to the families and children using the service.

Our Pre-School educators know and understand the requirements of the National Quality Framework including the National Law, National Regulations, the National Quality Standard, Early Years Learning Framework, Early Childhood Australia's Code of Ethics (2016), as well as the Pre-School's philosophy, policies and procedures.

Educators are aware that their attitudes, values and beliefs impact their work. Educators can benefit from working with each other, to identify where biases may have informed their values, and minimise the impact of bias in their practice and relationships with children, families, colleagues and the local community.
